

Thursday- 23rd March 2023

Program

-a visit to UNESCO Geopark Papuk

-Geoinfo Center in Vocin

- Nature Park Papuk

-lunch break

Jankovac forest park

-free time

The Geoinfo center in Voćin is the starting point for getting to know the Papuk Geopark – visitors can learn about the geological, biological and cultural-historical heritage of Papuk through a multimedia and interactive display.

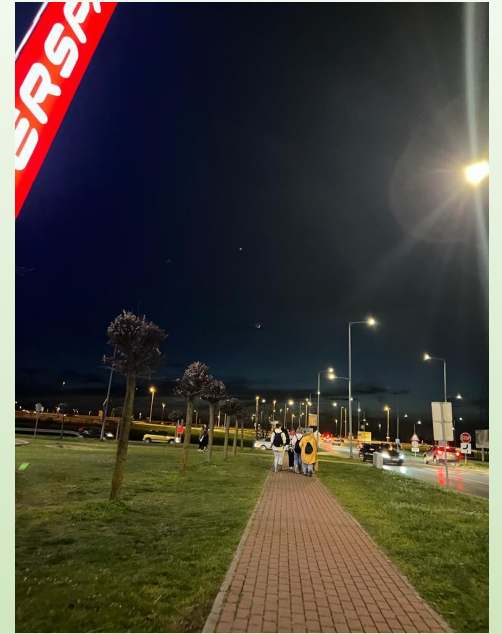

Our visit to the Geo info center began in the multi-sensory 6D cinema hall, with the film in which the cute ammonite Toni took us back to the ancient times of Papuk's past with his time machine, but still further into the past - to the time when huge megalodon sharks, dolphins and seals swam in the Pannonian Sea, until the age of development of mammals and dinosaurs!

The 6D cinema hall is designed so that you feel as if you are really there! We experienced a journey through the past of Papuk and the Earth - with 3D glasses and all the effects of moving seats, tickling legs, swaying, vibrations, water effects, splashing of a waterfall, wind.

Papuk is a geopark under UNESCO protection since 2007 and a member of the World Geoparks Network as the first geopark in Croatia.

**We had fun and
enjoyed ourselves in
the afternoon!**

Thank you !
